- **Backend :** Node.js, Express.js
- **Database :** MongoDB
- **Version Control** : Git
- **Cloud Services** : AWS
- Problem Solving, Debugging and Troubleshooting
- Good Communication Skill

EXPERIENCE

MERN STACK DEVELOPER INTERN

RCS Technology, Bangalore

June 2022 - Sept 2022

- Collaborated with a team to develop responsive web applications using MERN Stack.
- Contributed to the implementation of features using React, Node and MongoDB.
- Assisted in troubleshooting and debugging issues to ensure seamless functionality.

MERN STACK FREELANCER

2023 - Present

- Successfully delivered 2 of freelance projects, demonstrating expertise in frontend and backend development.
- Developed interactive and intuitive user interfaces utilizing React, HTML, CSS, Bootstrap and Tailwind CSS.
- Designed and implemented RESTful APIs using Node and Express, integrating with MongoDB for data storage.

PROJECTS

- Created a E-Store - An eCommerce project that I initiated to showcase my skills as a web developer. It is a single-handed effort to design and develop a fully functional e-commerce web application utilizing React, Tailwind, Node and MongoDB.
